SUPERVISOR STEVE F. TAYLOR ANNOUNCES AED INSTALLATION AT MILWAUKEE COUNTY SPORTS COMPLEX

Milwaukee, WI – Milwaukee County Supervisor Steve F. Taylor today issued the following statement regarding the installation of a defibrillator at the Milwaukee County Sports Complex:

“I am proud to announce the recent installation of a defibrillator in the Milwaukee County Sports Complex. It came to my attention that the Sports Complex, like many governmental buildings and schools within the County, was not equipped with a defibrillator.”

“The addition of this AED unit and the training of Sports Complex employees will provide community members who attend events at the Sports Complex the peace of mind that a life saving device is within arm’s reach.”

“Numerous sports activities take place in and around the Sports Complex on a regular basis, including soccer, volleyball, basketball and bike riding on the Oak Leaf Trail. In addition, for the past twelve years the Franklin Senior Walkers, with 150 active members, have been utilizing the Sports Complex as there weekly meeting place.

“As I have said before, the health and safety of our community members is extremely important and for this reason I commend all that where involved in obtaining the AED unit and the accompanying signage.”

“I would like to thank the Franklin Senior Walking Club for reaching out to me and The Surgery Center in Franklin for donating the device. The Surgery Center will be in attendance at the Milwaukee County Sports Complex on Thursday, October 2, 2014 at 10:30 a.m. to introduce the new device.”
